

ROBERT AMABA

Web Developer

+63 919 737 6101 · amabarobert@gmail.com · Labangon Tisa, Cebu City · robert-amaba-portfolio.vercel.app

PROFESSIONAL SUMMARY

Recent Bachelor of Science in Information Technology graduate with hands-on experience in frontend development through academic projects and professional training. Proficient in React.js, WordPress, HTML, CSS, and responsive design. Demonstrated ability to convert design mockups into functional web interfaces and collaborate effectively in team environments. Currently expanding skills in modern development workflows with Claude Code and seeking opportunities to contribute to innovative web projects.

TECHNICAL SKILLS

Frontend Development: React.js, HTML, CSS, JavaScript, Material-UI, WordPress

Backend & Databases: PHP (Laravel), Java (Spring Boot), MySQL, SQL

Tools & Platforms: Git/GitHub, Figma, Canva, XAMPP, NetBeans IDE, Claude Code

Development Practices: Responsive Design, UI/UX Implementation, Version Control, Agile Methodologies

PROFESSIONAL EXPERIENCE

Payslip System | *Freelance Project*
Full Stack Developer

March 2026 – April 2026

A web-based payroll management system for generating, managing, and distributing employee payslips across multiple companies and currencies.

- Built multi-company payroll management with USD and PHP currency support including live exchange rate conversion
- Implemented bulk payslip delivery via email and bulk PDF generation with folder download support
- Developed a dynamic custom column system with formula builder and Excel data import

School Project Collaboration | *Paid Freelance*
Frontend Developer / QA & Documentation

December 2025 – February 2026

Assisted a friend with a paid school project, contributing to documentation, quality assurance testing, and frontend development tasks.

- Created and maintained project documentation to support development and submission requirements
- Conducted QA testing to identify bugs and ensure application stability across scenarios
- Contributed frontend improvements and UI fixes as needed throughout the project

Humedit Philippines | *On-the-Job Training*
WordPress Developer / Support

February 2025 – April 2025

- Developed and maintained responsive WordPress websites, translating Figma design mockups into pixel-perfect HTML and CSS implementations
- Conducted comprehensive website testing and debugging to ensure optimal functionality and user experience across multiple browsers and devices
- Performed content updates and maintenance, including link management, text revisions, and document conversions from PDF to web-readable HTML format
- Identified and resolved front-end issues including responsive design bugs, broken links, and cross-browser compatibility problems

ACADEMIC PROJECTS

CebuStay – Booking Application
Project Team Lead & Backend Developer

January 2024 – December 2024

Led a team of 5 developers in creating a comprehensive web and mobile booking platform for accommodations in Cebu City.

- Coordinated project timeline, delegated tasks, and maintained communication with project adviser to ensure timely delivery
- Architected and developed RESTful APIs using PHP (Laravel framework) for seamless frontend-backend integration
- Designed and implemented MySQL database schema, managing data relationships and optimizing query performance

EvoHub – Event Management System

August 2023 – December 2023

Full-Stack Developer

Collaborated with a 4-person development team to build a complete web application for managing school events and registrations.

- Developed responsive user interfaces using React.js and Material-UI, ensuring consistent design and optimal user experience
- Built robust backend services with Java Spring Boot, implementing event management logic and secure user authentication
- Integrated frontend components with backend APIs, managing state and data flow throughout the application

EDUCATION

Cebu Institute of Technology – University

2020 – 2025

Bachelor of Science in Information Technology

Graduated May 2025

PROFESSIONAL COMPETENCIES

Leadership & Collaboration: Proven ability to lead development teams, coordinate tasks, and work effectively in collaborative environments

Problem-Solving: Strong analytical skills with experience debugging complex issues and implementing efficient solutions

Continuous Learning: Actively expanding technical knowledge through modern development tools and practices, including AI-assisted development with Claude Code

Adaptability: Quick to learn new technologies and frameworks, with demonstrated flexibility across full-stack development roles
