ROBERT AMABA

Web Developer

+63 919 737 6101 | amabarobert@gmail.com | Labangon Tisa, Cebu City

PROFESSIONAL SUMMARY

Recent Bachelor of Science in Information Technology graduate with hands-on experience in frontend development through academic projects and professional training. Proficient in React.js, WordPress, HTML, CSS, and responsive design. Demonstrated ability to convert design mockups into functional web interfaces and collaborate effectively in team environments. Currently expanding skills in modern development workflows with Claude Code and seeking opportunities to contribute to innovative web projects.

TECHNICAL SKILLS

Frontend Development	React.js, HTML, CSS, JavaScript, Material-UI, WordPress
Backend & Databases	PHP (Laravel), Java (Spring Boot), MySQL, SQL
Tools & Platforms	Git/GitHub, Figma, Canva, XAMPP, NetBeans IDE, Claude Code
Development Practices	Responsive Design, UI/UX Implementation, Version Control, Agile Methodologies

PROFESSIONAL EXPERIENCE

WordPress Developer / Support

Humedit Philippines | On-the-Job Training Feb 2025 - Apr 2025

• Developed and maintained responsive WordPress websites, translating Figma design mockups into pixel-perfect HTML and CSS implementations

• Conducted comprehensive website testing and debugging to ensure optimal functionality and user experience across multiple browsers and devices

• Performed content updates and maintenance, including link management, text revisions, and document conversions from PDF to web-readable HTML format

• Identified and resolved front-end issues including responsive design bugs, broken links, and cross-browser compatibility problems

ACADEMIC PROJECTS

CebuStay - Booking Application | Project Team Lead & Backend Developer

Cebu Institute of Technology - University Jan 2024 - Dec 2024

• Led a team of 5 developers in creating a comprehensive web and mobile booking platform for accommodations in Cebu City

• Coordinated project timeline, delegated tasks, and maintained communication with project adviser to ensure timely delivery

• Architected and developed RESTful APIs using PHP (Laravel framework) for seamless frontend-backend integration

• Designed and implemented MySQL database schema, managing data relationships and optimizing query performance

EvoHub - Event Management System | Full-Stack Developer

Cebu Institute of Technology - University Aug 2023 - Dec 2023

• Collaborated with a 4-person development team to build a complete web application for managing school events and registrations

• Developed responsive user interfaces using React.js and Material-UI, ensuring consistent design and optimal user experience

• Built robust backend services with Java Spring Boot, implementing event management logic and secure user authentication

• Integrated frontend components with backend APIs, managing state and data flow throughout the application

EDUCATION

Bachelor of Science in Information Technology

Cebu Institute of Technology - University 2020 - 2025

Graduated February 2025

PROFESSIONAL COMPETENCIES

Leadership & Collaboration: Proven ability to lead development teams, coordinate tasks, and work effectively in collaborative environments

Problem-Solving: Strong analytical skills with experience debugging complex issues and implementing efficient solutions

Continuous Learning: Actively expanding technical knowledge through modern development tools and practices, including AI-assisted development with Claude Code

Adaptability: Quick to learn new technologies and frameworks, with demonstrated flexibility across full-stack development roles
